

Hello!

This brochure is an invitation for you to learn more about Edify School, and the essence of student life on our campus.

Edify School is a bustling community of thinkers and learners. As a school that is firmly committed to fostering international mindedness and progressive thinking, Edify School is home to students of different cultures and varied backgrounds who enjoy learning from diverse perspectives and ideas. Here, you will find peers and facilitators who are as passionate as you are about innovation and excellence.

An innate love for learning binds every member of our school community together. Experienced faculty who are well trained in the latest pedagogy make sure that every learning experience you have in this school is an unforgettable one.

As you learn more about Edify School, you will see that our unique community is made possible by a student-centered and personalized approach, with dedicated faculty that seeks to make each student's journey through Edify School a unique and transformative experience. They, along with the rest of the school community and alumni, give you the warmest of welcomes to Edify School.

With warm regards,

The Edify School Community

A Note from the School

You've just opened the prospectus that will guide you through the first steps to becoming the person you want to be. It will give you a detailed view of the Edify School student experience, and, specifically, what life is like as part of the different curriculum we offer.

Learn firsthand about the amazing journey you will embark on over the next years and the opportunities available to you as a Edify School student.

By the time you're finished reading, you'll be one step closer to becoming a part of the dynamic learning community we are so proud of.

Our Vision

Our vision to foster a society of individuals capable of progressive thinking, creating and initiating positive change in the social, economic and cultural fabric to impact the global community through knowledge, understanding and attitude.

Our Mission

To nurture individual talents and abilities empowering all children and help them develop into creative disciplined, dynamic leaders of the future. These children will be active global citizens contributing richly to our nation and the world. To raise them as independent, responsible, resourceful and successful individuals with high self esteem and confidence.

ABOUT THE **MDN Edify Education**

One man saw it all happening! Our founder and CMD of DRS Group of companies Mr. Dayanand Agarwal! He had a dream of establishing schools that would enable the children to savour the special joys of childhood while they learn and grow. Shaping the young minds through innovative learning processes, making their schooling years productive, joyous and enriching has always been at the centre of all our activities. This philosophy and belief has led us to intensive research in and development of innovations in designing our curriculum, pedagogy, resource and infrastructure development and comprehensive teacher training.

MDN Edify Education Pvt. Ltd., an initiative of DRS Group caters to all segments of pre-primary, primary, secondary and higher secondary education. While maintaining the highest standards and quality of education, DRS Group offers a wide choice of schools, to suit every requirement in these segments through our pre-schools Edify Kids, our high-end premier schools Edify School, our low-investment mid-budget MDN Future School and our DRS International School with national and international curriculum.

It all started in the year 2003, when our flagship school – DRS International School – took birth, and so did MDN Edify Education Pvt. Ltd. soon after, with a herculean task of giving a definite shape to our CMD's dream. Ever since then, we have spread our wings pan India with 160+ Edify Kids and DRS Kids schools. In Secondary & Higher Secondary segment, with 58+ schools already in operation and many more in the making, MDN Edify Education Pvt. Ltd. is rewriting the history of school education in India and abroad. Some of our spectacular schools are already in operation at Amravati, Bengaluru Kanakpura, Bengaluru E City, Bengaluru Kengeri, Balapur, Firozabad, Goa, Nagpur, Tirupathi, Perinthalmanna, Kodungallur, Mandasaur, Cuddalore, Patna, Roha, Sindhanur, Sulur, Chhindwara, Dehradun, Chhatarpur, Gulbarga and Lakhani etc..

With the motto "Leading Young India", MDN Edify Education Pvt. Ltd. has pledged to provide the finest quality of education at affordable cost and create a society of progressively thinking individuals

ABOUT THE SCHOOL

Edify School is a progressive school with a difference. With an active commitment to the pedagogy of inquiry as well as the philosophy of internationalism, the school has a transformative ethos that shapes every member of the school community in enduring ways.

Students are at the heart of our learning community. The school's academic offerings and innovative programmes are planned to support and honour their voices and choices. Our faculty members receive the best of professional development opportunities to ensure that they are equipped to design not just lessons, but powerful learning experiences that are carefully personalized to meet the needs of every student. The school recognizes that each student's learning style and pace is distinct and structures instructional support accordingly.

Learning spaces at Edify School are designed to provoke thought and stimulate discussions. Our classrooms invite students to learn collaboratively by pooling their ideas and thoughts. Discussion, dialogue and exploration are a vital part of every learning experience at the school. Questions, prompts and provocations drive learning throughout the school and ensure that students make meaningful connections and find opportunities to apply the concepts they explore independently.

Every day at Edify School is full of the joy of discovery and growth. The school offers students a wide range of platforms and opportunities to nurture and showcase their talent. A spectrum of events and competitions that range across Sports, the Performing Arts as well as the Literary Arts, draw out the best in our students.

Students are encouraged to actively seek out and celebrate differences and diversity in all its manifestations and are moulded as global citizens who understand that interconnectedness is the essence of our learning community.

ACADEMIC PHILOSOPHY & PEDAGOGY

Defining your future

As a school that offers the 3C Curriculum, Edify School's overall academic philosophy is a seamless blend of best practices and informed approaches from across them to inspire in our students a life-long love for learning.

At the heart of the school's academic philosophy is an unwavering commitment to learning that is student-centric. Our inquiry-based approach encourages students to identify their own learning goals, and take ownership of how they learn. Our facilitators are extensively trained both in-school, as well as through professional development workshops, to ensure that learning and teaching is both carefully and collaboratively planned to be informed by ongoing assessment.

Learning experiences are themselves designed to be stimulating, engaging and conceptually based. Students are actively inspired to research ideas, questions and make connections collaboratively, to what they already know using a wide range of skills and a problem-solving approach that helps make learning meaningful, applicable and challenging.

Our unique and practical approach to education enables you to learn by doing.

Curriculum

Our academic programmes are curated to meet the needs of diverse learners.

Pedagogy

Inquiry, is the leading pedagogical approach that is distinctive of the Edify School classroom. The inquiry-based approach encourages students to take responsibility and ownership of their learning. Inquiry facilitates conceptual exploration that is customised to the needs of each student as opposed to a traditional instructional model that only delivers information. Our learning community as Edify School does not view knowledge as static but rather as a constantly evolving, collaborative process that necessitates original thinking and research.

While always accepting the value of student-centered learning, the school also embraces a variety of approaches to teaching and content, from a traditional lecture and discussion format to a range of more experiential approaches and teaching strategies like QAXP, RAFT, Reciprocal teaching, JIGSAW, Think Pair & Share, Four Corners etc.

Faculty development programmes, and professional development workshops give our facilitators the extra edge they need to stay connected with changing approaches to pedagogy.

Assessment

At Edify School we believe assessments are an integral and enjoyable part of learning that is not distinct from the learning process itself. Our facilitators begin each unit of study by first understanding and acknowledging what each student brings into the classroom in terms of existing knowledge. The rest of the learning and teaching process is then further built on this, and helps develop and inform learning on a formative basis. To achieve learning outcomes.

Recording, Documenting and Reporting assessment data is done meticulously, transparently and with great attention to detail and to the individual needs of the students. Evidence of student learning is documented through portfolios, projects, tasks and assignments and, are shared with parents at regular intervals through coffee mornings, parent-teacher conferences, meetings and open-house days besides student-led conferences and exhibitions.

CENTRAL BOARD OF SECONDARY EDUCATION

A Journey of Learning

CBSE is the popular board of choice in India, and has set high standards for holistic education and rigorous assessments with continuous innovation. Highly qualitative in its approach, CBSE aims to provide quality academic engagements and activities to prepare students for its rigorous and transparent system of assessment and evaluation and life at large.

Edify School offers the C.B.S.E. Curriculum at Middle School, Secondary School and Sr. Secondary levels. Edify School's one-of-a-kind approach to pedagogy and instructional design, ensures that the C.B.S.E. curriculum is implemented to the fullest possible extent to meet the goals it has set for itself.

Perfecting Pedagogy

Edify School's learner-centered pedagogy echoes C.B.S.E.'s student centered approach in all its scope. Our pedagogical approach and teaching strategies are spear-headed by our extensively trained teachers who regularly attend both C.B.S.E. and in-house workshops to further their professional development. This love for life-long learning is passed on to our students who grow to be passionate about their choice of subjects, and develop a deep curiosity for the world around them. Academic excellence is highly valued in Edify School, with plenty of emphasis on opportunities for hands-on and experiential learning. World Class amenities, Learning Laboratories, Field Trips to places relevant to the subject area being explored and Creative Learning Projects all help bring the curriculum to life in Edify School.

Striking a Balance

The curriculum takes on new meaning in the school with our innovative approach to both teaching and learning. C.B.S.E.'s firm belief in holistic education is reflected in every sphere in the school- whether it be our Innovative Programmes (such as D.E.A.R., Value Education Program, Life Skills Program, Sports Education Programme, Student Wellness Program and so on), Club Portfolio Options or our rigorous system of assessment that leaves no stone unturned when it comes to generating effective and informative feedback that helps our students reflect on their learning. The curriculum challenges our students to explore traditional disciplines in their depth while also encouraging a transdisciplinary perspective that transcends the confines of mere disciplinary learning.

Besides Special Assemblies and Inter-House events and competitions, our school is also well-connected to other C.B.S.E. and International Schools in the region, regularly partnering with them to enable our students to access wider platforms to participate and excel in. Through the C.B.S.E., Edify School offers both students of the secondary, and the senior secondary, a balanced curriculum that values national learning goals, a global perspective as well as personal growth. The C.B.S.E. curriculum at Edify School thoroughly prepares our students for continued academic and professional excellence by cultivating 'habits of the mind'.

Subject Combinations

At Edify School, we offer the following subject choices for students of **Grades VI-X** in addition to English Language & Literature, Mathematics, Science, Social Science and ICT.

Choice of Second Languages:

Co-Scholastic Areas

Co-scholastic areas including Work Education or Pre-Vocational Education, Art Education, Health & Physical Education are vital areas that promote the holistic development of students and make students more competent and balanced in the CBSE Curriculum.

INTERNATIONAL KINDERGARTEN EARLY SCHOOL PROGRAMME The Perfect Start !

Student-led exploration and inquiry is the bedrock on which learning in the International Kindergarten is built.

Truly a place of joy, discovery and learning, the International Kindergarten is a second home to our students below the age of six. Driven by the 3C curriculum philosophy, the International Kindergarten gives our students an early start to play-based, exploratory inquiry in warm and inspiring learning environments that are designed to provoke the imagination and natural curiosity of the little ones.

Our kindergarten students enjoy a daily routine filled with learning adventures that, besides the creative emphasis on the basics of English and Math, offer students IMs that help them develop a sense of identity as well as satiate their thirst to explore and learn about the world at large.

The Jungle Gym, Wonder Room and Activities of the Month add vibrancy to the Programme. Special celebrations such as 'Colour of the Month' and 'Activity of the Month', give students a plethora of creative activities while a specially planned innovative programmes

such 'Fun Race of the Month', 'Visit of the Month', 'Interaction of the Month', 'Etiquette of the Month', etc. , help them develop their social, self-management, and communication skills through play and carefully thought-out experiences.

There is a strong focus on helping students develop meaningful and nurturing relationships with their peers, their facilitators and their immediate world.

Student-led exploration and inquiry is the bedrock on which learning in the International Kindergarten is built.

THE INTERNATIONAL BACCALAUREATE PRIMARY SCHOOL PROGRAMME A World of Questions

14
15

3C stands for Content, Character and Competence. In order to implement trans disciplinary learning, the 3C curriculum adopts a thematic approach towards learning. The themes have a wide range of descriptors which are broad enough to accommodate various subject related concepts under a single main idea that is indicative of an action. This action has significant implication in a student's day to day life and decision making. The modern curriculum design is most effective because of it's unique teaching-learning processes and learner-centric approach.

The primary years are the foundational years for growth and the learning and at Edify School, we believe that the 3C Curriculum, has one of the best approaches to primary schooling in the world.

The 3C Curriculum encourages students to look at the world beyond the lens of traditional subject boundaries and grow as diverse, global citizens, who are equipped with skills that are future-ready.

At Edify School, we place the learner at the heart of everything we do. Through 3C Curriculum, we nurture in our young students a passionate love for learning through its investigative and inquiry-based approach that incites them to examine for themselves the nuances of the

concepts explored. At Edify School, our facilitators push the boundaries of transdisciplinary learning to ensure that each of our students learn in an integrated, holistic way and are organically prompted into taking action.

The soul of 3C Curriculum is its commitment to international mindedness and this belief is enshrined in all our practices at Edify School. Our classrooms promote a practical engagement with the 3C Learner Profile, with students learning to identify and embody these traits in their daily lives. Our highly qualified and trained facilitators, team up with students to create learning engagements and experiences that are as unique as they are rich in impact and meaning.

Exciting events, creative competitions, exhibitions, a rigorous Sports Education Programme and field trips make learning at Edify School, the foundation of your child's life-long educational journey.

The PSP is organized according to:

The Written Curriculum

The 3C-PSP Programme balances the acquisition of significant and relevant knowledge and skills, the development of conceptual understanding, the formation of personal, positive attitudes and the capacity to take responsible actions.

The PSP:

- addresses students' academic needs and their social and emotional well-being
- encourages students to develop independence and to take responsibility for their own learning
- supports students' effort to gain understanding of the world and to function effectively within it
- helps students to establish personal values as a foundation on which international-mindedness will flourish.

The written curriculum, outlined below, is made up of six essential elements and details what students will learn.

1. Character
2. Competence
3. Content
4. Concept
5. Knowledge
6. Action

The Taught Curriculum

The taught curriculum is the one that facilitators actually deliver. In 3C, equal emphasis is given to

methodology, to the taught curriculum, to suggest for examining and improving our practice and the provision of in-service support.

The PSP in 3C is committed to structured, purposeful inquiry that engages students actively in their own learning. The programme supports students' efforts to construct meaning from the world around them by:

- drawing on their prior knowledge
- providing provocation through new experiences
- providing opportunities for reflection and consolidation.

This approach respects students' developing ideas about how the world works. It encourages them to question, consider and refine their understanding of the social and natural world.

The Assessed Curriculum

The assessed curriculum explains how teachers go about gathering and analysing information about student performance. The 3C does not set examinations or moderate grades in the PSP.

The purposes of assessment are to:

- promote student learning
- provide information about student learning
- contribute to the successful implementation of the programme.

The Elements of Assessed curriculum are:

Assessing: How we discover what students know (formative assessment & summative assessment)

Recording: How we choose, and analyze data (rubrics, exemplars, checklists)

Documenting: What documents to maintain to trace the journey of the learning?

Reporting: How we choose to communicate information (conferences, written reports, exhibitions etc.)

Through assessment, 3C helps schools teaching the Primary school Programme (PSP) to identify what students know, understand, can do and value at different stages in the teaching and learning process.

In the PSP, learning is viewed as a continuous journey, where teachers identify students' needs and use assessment data to plan the next stage of their learning.

Teachers use a wide range of assessment strategies to collect information on each of the elements represented in the written curriculum: the understanding of concepts, the acquisition of knowledge, the mastering of skills, the development of positive attitudes and the ability to take responsible action.

DICTIONARIES

DICTIONARIES

DICTIONARIES

A World of Resources - Our Information & Media Center

Besides the extensive resource corners in our classroom that house books, props and resources relevant to the learning, our students also have access to our information & media centre that is home to books, journals, encyclopedias and other multimedia resources that help them take their learning even further.

DICTIONARIES

ENCYCLOPEDIAS

My Enrichment Opportunities

Our unique and practical approach to education enables you to learn by doing.

Your experience at Edify School will involve a lot more than your academics as we offer an exceptional range of opportunities that allow you to tailor your academic pursuits to suit your specific career goals by adding on to your tool-kit of skills and capabilities.

Edify School takes an applied and student-centered approach to education, identifying your unique strengths and giving you many platforms to build your own path.

In addition to the curriculum of your choice, you will be able to personalize your program and develop your skills with add-ons including innovative programs, club portfolio options, internships and more.

Student Life

From the very beginning of your journey at Edify School, you will undergo a transformational experience that will enhance your personal values and enable you to play a leading role in shaping the world around you and achieving your goals. You will receive an inspiring and challenging education that will broaden your horizons and shape who you are and who you will become. Student Life at Edify School will connect you to the world and guide you further along your own unique path.

STUDY ABROAD

The World is in your Hands!

20
21

As a student at Edify School, you will have several opportunities to develop international-mindedness and a global outlook that prepares you to thrive as a citizen of the world. Over the years, many of our students have gone on to pursue their higher education in top-ranked universities across the world.

"Studying at Edify School opened doors for me around the world. Being a student of the school gave me the confidence and the skills I need to make the most of university life. Much of the credit of who I am today, without doubt, goes to my teachers and the many opportunities they gave me to develop my passion for technology."

“Although I never realized it at the time, studying at a school like Edify School does wonders in making you an open-minded person who is open to other perspectives. I think my hunger for travelling and learning about new cultures can definitely be traced back to the experiences and exposure the school gave me in my formative years.”

“So many of the research skills I confidently use today were developed in my time spent at Edify School. Independently was definitely a challenge that pushed me and shaped my academic interests. Experiences, internships and letters of recommendations from the school all served me in good stead when I applied to University of Leeds.”

“Learning through inquiry gave me a thirst to know and discover the world on my own terms. Edify School gave me a set of transferable skills and a range of experiences that I cherish and continue to value throughout my university. I look back at my time at the school fondly, and treasure every single moment and achievement I made there.”

Our unique and practical approach to education enables you to learn by doing.

UNIVERSITY ADMISSIONS CELL & CAREER COUNSELLING PROGRAMME

Go places with Edify School!

Over the years, students from Edify School have gone on to secure admissions in top universities world-wide. A University Admissions Cell has been established in the school to expand our students' educational Horizons.

Navigating a maze of universities, courses and eligibility criteria on one's own can be an overwhelming prospect, especially given the wide range of choices that exist globally today. The University Admissions Cell assists our students in making the right choices in narrowing down on the best course and the best university, from around universities across the globe, that best fit their aptitude, interests and career paths.

The Cell also guides our students through every step of the applications process and provides assistance for securing letters of recommendation, drafting their Statement of Purpose, providing transcripts and predicted grades etc.

The school is also associated with career guidance portals that assist students through the process and offer support services such as access to 26 deep dive research tools, psychometric test options, country or stream selector guides etc. besides assistance from counsellors. Students at Edify School can attend webinars, apply for entrance tests etc at universities around the world and so on to broaden their prospects.

Students at Edify School also have opportunities to connect with their former seniors through our Alumni Guidance system, to draw on their experience and guidance in embarking on the most defining journeys of their life.

COUNSELING AND BEHAVIOURAL SUPPORT

A support system like no other..

At Edify School, our students have an extensive support system that includes highly qualified psychologists and counselors who work to ensure that students have access to all the resources they need to be balanced and emotionally healthy.

The school offers students both individual and group counselling. While individual counseling addresses individual students' emotional concerns, group counselling sessions conducted by counselors effectively tackle common concerns such as relationships, stress management, anger management, enhancing self esteem and so on. Empathy building exercises, trust building games, and powerful sharing sessions, are all strategies our counselors use to help our students build their emotional tool-kit.

CLUB PORTFOLIO OPTIONS

Connections and Activities

²⁴₂₅ We recognize that effective learning does not always take place exclusively in the classroom. As a school, we wish to broaden learning horizons so that students can connect the outside world to their experiences in school. Each club in school tries to provide these enrichment activities in their own way. Clubs are perhaps one of the most anticipated programmes at Edify School.

Literary Club

The club nurtures a love for language, promotes literary interests and activities on campus and encourages students to analyze both reading and writing perspectives. Creative self-expression, articulation of ideas through word play and creative collaborations that hone students' confidence make the essence of the club.

Visual Arts Club

The club encourages students to bring their imagination to life, by creating experiences that develop the knowledge of materials and processes as starting points for creative exploration through paint, paper and even sculpture. The club invites students to look at colours, shapes, textures and designs differently.

Performing Arts Club

Through the performative mediums of dance, drama and theatre, the club fuses performative elements to nurture a love for active expression in the students. Narrative dance-forms, plays and performances are given original interpretations through the club. The Club is open to contemporary, classical and western performative modes and trains students to excel in the form of their choice.

Music Club

Edify School nurtures students who are musically inclined through this club. Besides accommodating and cultivating a diverse range of musical tastes, the club also provides voice-coaching, sessions in musical notation, opportunities to learn to play instruments and compose original scores.

Eco Sustainability Club

The club encourages students to identify, learn about and adopt sustainable practices that help conserve the environment. The club also provides a platform for students to take considered action through awareness campaigns, movements and drives that aim to sensitize the local community about the need to go green.

Edify Community & Humane Club

The club actively nurtures the altruistic streak in our students by encouraging them to understand and act on their responsibility towards the community at large. This involves students actively participating in, and even initiating drives and outreach programmes that focus on empowering and assisting those less privileged than themselves, honing a wide array of skills in the process.

Design and Technology

The club will promote learning of designing concepts through tools of technology, Photoshop, Animation, etc to understand, innovate and create design and product prototypes. The basic principles of design and technology are introduced to the students who then experiment collaboratively using models and test pages.

Cuisine Club

The Cuisine Club develops the love of cooking and culinary innovation in our students. Students are encouraged to experiment with flameless cooking including salads, entrees and desserts from cuisines around the world, developing a nuanced

understanding of flavour, texture and technique in cooking.

MUN Club

The Model United Nations Club gives students hands-on experiences of simulating the proceedings of the UNO, through discussion and deliberation. Students learn the Rules of Procedure in a practical way and engage with issues of global concern. Mock MUNs also prepare them to tackle MUNs at the school level.

INNOVATIVE PROGRAMMES

Beyond the Classroom

26 At Edify School, we believe that true education is only complete when a student
27 learns to think independently and critically, is well-informed and socially responsible. We offer a range of innovative programs that are designed to provoke thought, reflection, engagement and action with issues that concern the world at large. Our Innovative Programs ensure that students have opportunities, platforms and spaces to make their voices heard and to engage with views different from theirs, while developing core skills and tools that will serve them in good stead.

SPORTS EDUCATION PROGRAMME

Edify School strongly abides by the approach of 'Sports for All'. Our Sports Education Programme (SEP) accommodates students of diverse abilities and interests, and helps make the development of knowledge, attitudes and skills related to active living physical health possible. Students choose one particular sport to pursue and are given extensive coaching. We have specialist coaches who train students in swimming, basketball, volleyball, handball, netball, karate, cricket, skating, lawn tennis, badminton besides recreational sports like gymnastics, archery, athletics etc. A range of competitive indoor games like chess, foosball and table-tennis is also offered at the school. We also have fitness consultants who give students train students in Yoga.

The SEP helps students learn vital skills of collaboration, body control, spatial awareness, and commitment. Our students regularly participate in inter-school competitions and tournaments held at the district, state, national and international levels.

VALUE EDUCATION PROGRAMME

The Value Education Programme at Edify School stimulates reflection and introspection about issues that have moral and ethical relevance. The Programme encourages students to thoughtfully choose and adhere to a set of values that is appropriate to and best reflects the challenges of their time, rather than preaching values and imposing them on them. The sessions and activities are designed to promote independent moral reasoning and support discussions about moral dilemmas and crisis, from which students can develop an enduring and meaningful set of values.

The Programme deals with a wide variety of themes of social significance through creative approaches and activities.

LIFE SKILLS PROGRAMME

The Life Skills Programme at Edify School consciously equips our students with the skills they need to get through life's ups and downs with equal ease. The Programme has adopted three skills as its core focus- Thinking Skills, Social Skills and Emotional Skills. Using a wide variety of methods that range from discussions to film screening and interactive games, the Programme imparts these skills through an experiential approach that brings in real-world dilemmas into the classroom, giving our students the extra edge they need to face adversity and fortune with equal grace. Learning to Live has never been more fun!

STUDENT WELLNESS PROGRAMME

The Student Wellness Programme enables our students to engage with matters of health, hygiene, safety & nutrition in creative ways. The Programme both informs and guides through the lifestyle choices they make, encouraging deeper reflection and thought at every step of the way. The programme also brings individual habits and community practices under the scanner, investing in our students the confidence they need to bring about positive changes that benefit themselves and those around them.

D.E.A.R. PROGRAMME

Reading is redefined with Edify School Drop Everything and Read Programme. With a library that houses nearly 15, 500 books, magazines, newspapers, periodicals, journals and ebooks, our budding readers are spoilt for choice. The Programme enlists the homeroom facilitator's assistance to guide students through books of a wide array of genres, titles and time-periods. From beloved classics of Elliot & Austen, to more contemporary fiction for young-adults, our students are guided through age-appropriate reading assignments that balance their

interests and taste. Book reviews, reports and conferencing helps students share their reading and articulate their personal take on whatever is read.

The D.E.A.R. Programme inspires in our students a deep and enduring love for reading and literature that leaves a lasting imprint on their lives.

PERSONALITY DEVELOPMENT WORKSHOPS

In addition to the Innovative Programmes and Club Portfolio Options, students at Edify School are given opportunities to participate in workshops that take place throughout the year, that focus on a wide range of aspects relating to the development of a well-rounded and balanced personality. From one-of-a-kind workshops on 'Creative & Critical Thinking', to many on eclectic topics such as 'Sequential Art', 'Improvisation', 'Playnomics', 'Self-defence' or even those that relate to grooming and confidence-building, the workshops offer our students exposure to multiple ways of perceiving and navigating the world at large, that challenge them at many levels in unique and interesting ways. Guest-lectures and workshops also add variety to our students' everyday lives and give them chances to explore territories outside their comfort zone.

SAFETY, SECURITY & BEYOND

28
29

Edify School has many systems, facilities and processes in place to ensure that the school is a safe and welcoming space for your child, so that you can rest assured.

Bus Tracker App

Edify School has its very own Bus Tracking App for your convenience. Compatible with Android and iOS devices, the device helps you track your child's commute en route to and from school.

CCTV Surveillance

Besides a vigilant team of trained security personnel, the school has an extensive CCTV network, that is closely monitored to ensure safety and security at all times.

ESH App

ESH is an integrated browser based software suite and portal, with which parents can review processes such as their ward's

attendance, academic performance, homework assignments, status of submissions, circulars, fee status, school events and gallery images through the smart-phone app and the web portal at their convenience.

The Infirmary

Our six bed infirmary is fully air conditioned, and is staffed by a nurse and a doctor on-call. We have an ambulance for use in case of emergency. Our school also has arrangements with nearby hospitals for hospitalization, diagnostics and other emergencies.

The Cafeteria

The school serves healthy, nutritious, well-balanced vegetarian meals and snacks from across both regional and international cuisines for children who opt to not bring food from home.

FIVE REASONS TO STUDY AT Edify School

1

DEVELOP A GLOBAL OUTLOOK

Programmes, events and classroom experiences at Edify School are designed to help you develop international-mindedness and a global perspective. Vital skills such as critical thinking and collaboration are a natural part of our school culture.

3

ACCESS TO A RANGE OF PLATFORMS

At Edify School, you are a part of an interconnected and collaborative network of learners world-wide. Our students enjoy opportunities to develop and showcase their talent across a range of national and international platforms.

2

EXPERIENCE THE BEST OF PEDAGOGY

Our facilitators attend a range of professional development workshops to bring the most current and effective teaching practices and student-centered methodology into the classroom.

5

4

BE A PART OF OUR RECOGNIZED COMMUNITY

With more than 2585 awards, recognitions and accolades to our credit, Edify School is definitely one of the top international schools of choice for students who wish to balance academics and other pursuits with equal passion.

BUILD THE PATH TO YOUR FUTURE

With support from our University Placement Cell and Career & Guidance counsellors, you have a strong launchpad to begin your undergraduate journey and career prospects on the right track.

ADMISSION PROCESS

The first step in your path to success

1. The First Interaction

Interested candidates and their parents can reach out to our Admissions Team telephonically or through our website, to discover more about the school and what it offers to students who are passionate about learning and pursuing a journey of self-discovery.

2. The Visit

After confirming their appointment with the Admissions Team, parents of prospective students can meet our Admissions Counselors to explore their academic prospects and options. The campus tour is also an integral part of the first visit.

3. The Personal Interview

Subsequently, interested candidates will fill out and submit the application form, and attend a personal interview and skill test to determine their academic ability and needs.

4. Documents Submission

At this stage, candidates must share the documents required to process the admission further. This includes document such as medical forms, report cards, birth certificates, Aadhaar Cards, Photographs, Transfer Certificate etc.

5. Confirmation of Admissions

If the candidates admission is conformed , a confirmation letter or email is shared with the parents.
